

Sensing

- Presence Detection
- Distance Measurement
- Angle Measurement
- Rotary Encoders
- Process Instrumentation
- Identification
- Image Processing

Control and Robotics

- Controllers
- Industrial Robots
- Human Machine Interface
- SCADA
- Drive products

Cabling Devices

- Cable glands
- Grommets
- Cable Entry System
- Cable Protection

Connection

- Industrial connectors Han
- Harting MICA
- Unmanaged Ethernet switches
- UHF RID
- Board Connectors
- Interface connectors
- Cable assemblies and distribution
- Customized Solutions
- Decentralized drive systems
- Current measurement technique

Electro Magnetic Compliance

- IEC inlet filter
- Power entry modules
- Single phase filters
- EMC / EMI chokes
- DC Filters
- 3 phase filters
- Feed thru components
- PCB filters

- Safe sensor technology
- Safety relays
- Safety switches
- Drive Technology
- Safety Device Diagnostics
- Safe control technology
- Modular safety gate system
- Configurable small controllers
- Safe camera systems
- UL certified
- FIPFG gasket
- IP65, IP66 & IP67 rating
- MS Standard Cabinets
- Stainless Steel Cabinets & Boxes
- Operating Consoles
- Control Consoles
- PC Cabinets
- Networking cabinets
- Wall mounting boxes
- Junction boxes-IP67
- Solution in sheet metal

Sinexcel

- Active Harmonic Filters
- Static VAr Generator (Step less PF correction)
- SVG (Static VAr Generator with controller to operate along with APFC/RTPFC in Synchronisation mode)
- Active Voltage Conditioner (Voltage Sag conditioning/compensation)
- EV Chargers
- Energy Storage Systems
- Battery formation and Testing Equipment

Welcome to Omkar Systems

Omkar Systems offers wide range of Industrial & Automation Technology products, systems and solutions.

In 2009, Omkar Systems took its first baby step by supplying automation sensors to customers with only entrepreneurial spirit. At the end of the year, we could count our customers with just only one hand.

With close to a decade of journey, we have gained invaluable experience, reinvented ourselves, forged close knit association with many domain experts and several global brands.

From product supplier in early days to as of now, we offer Automation Solutions. Today, we can say, we have a long list of happy customers. This is the testimony of our growth story. This successful journey can be attributed to not any one person or factor, but a combination of spirit, dedication, commitment, association, innovation, integrity, etc.

Some of the activities of Omkar

- **Product selection to suit Customer applications**
- **Offline & online trials of suggested product to meet Customer approval**
- **Implementation of solutions at Customer site**
- **Supply, Installation and commissioning of PLC based Panel**
- **Consultancy on EMI / RF / HF noise attenuation**

Omkar Systems

101 B, Mahavir Umang,
Kolbad Road,
Thane (West) - 400 601
Maharashtra, India
